

2012 Ammonia Safety Training

...Because Refrigeration is Still An Engineered Product!

PermaCold Engineering is pleased to host its 14th Annual Ammonia Safety Training. The training sessions will be offered in four different venues; Portland, OR, Pasco, WA, Federal Way, WA and Meridian, ID. PermaCold Engineering is excited to partner with iWorkWise to provide the best choice in Ammonia Safety Training.

24-Hour Hazardous Materials Technician \$590

This class satisfies OSHA and state requirements for those who respond offensively to stop a hazardous chemical release. Topics covered include laws and regulation; incident command and notification; hazard recognition, assessment and communication; respiratory protection; monitoring and instrumentation; PPE/chemical protective clothing; decontamination procedures; confined space hazard and assessment; lockout/tagout; and emergency response plans.

8-Hour First Responder Operations Level and First Responder Awareness Level \$240

This class is designed for those who respond defensively to hazardous chemical releases. Topics covered include basic terminology; hazard risk assessment techniques; selection and use of PPE; basic control, containment and confinement and decontamination procedures; DOT emergency response guidebook; and standard operating and termination procedures.

8-Hour Annual Refresher \$240

An annual refresher course is required to maintain the 24-Hour certification.
