3005 NE Argyle
Portland, OR 97211

Dear Ward:

I am writing to thank you and the rest of your organization for being a part of our recent facilities expansion project here in Tillamook. Though the combined efforts of all involved, our project team overcame floods, windstorms, and the invariably rainy weather of the Oregon Coast to bring the project to a successful conclusion.

I've included a booklet showing the progress of the project. Unfortunately, we couldn't highlight the work of every contractor on the job, but the book is intended to show the overall progression of work. I would appreciate it if you would pass along my thanks to Billy Griffen, Dale Dudley, Lee Troutman, and Mike Luchaco.

Best regards,

Jack Mulder
TCCA Project Coordinator
