

2024

Ammonia HAZWOPER Training

Welcome to the iWorkWise 2024 Ammonia HAZWOPER Training sponsored by PermaCold Engineering! This year's specially designed HAZWOPER training will be accomplished online, including registration. Here are the details:

HAZWOPER 8-Hour - \$200 per person

This training is for First Responders who do not need a Technician level certification, or for those who need to meet their annual refresher requirements to keep their Technician level certification. This training will consist of approximately 50-minute video segments conducted by a variety of iWorkWise instructors with special expertise in the topics at hand. This course will be released on April 1st. It is not available until April 1st.

HAZWOPER 24-Hour Technician Certification - \$600 per person

This training is the initial training required for operators to be certified in HAZWOPER at the Technician level. The first two days will be live-streamed on Zoom. You can choose to take the streaming portion of this training on either of the following dates:

Tuesday, March 26th - Wednesday, March 27th, 2024

Tuesday, April 23rd - Wednesday, April 24th, 2024.

The last 8 hours of HAZWOPER training will be the same HAZWOPER 8-hour course outlined above, and will be available to take on/after April 1st for those in the March class, and for those in the April class, immediately following their live-stream class above.

How to Purchase Seats and Enroll in a Course

Purchase the seats directly from our online store. After purchase you will be provided an authorization code to send to your employees, along with instructions, so they can enroll.

Note, registration is a two-step process.

- 1. PURCHASE:** Purchase the number of seats you want, and you will receive an authorization code and instructions for the registration of whomever you want to attend.
- 2. ENROLL:** Provide each employee you want to enroll in the course with the code and the instructions. They are not registered for the course until they enroll. When they enroll, we then have their names and emails so the system can send them the link to the course, along with any other necessary reminders and communications. For the HAZWOPER 24-Hour Technician course, the employees will be able to select the dates they want to join as part of the enrollment process.

Use this link to the online store to purchase course seats and receive enrollment instructions:

<https://www.permacold.com/ammoniasafetytrainingclasses>

If you are registering more than 10 people, you can either make the purchase online as outlined above, or we can assist. Reach out to Ariel.Hard@iworkwise.com for assistance with registration. For registration of more than 10 people we can process Purchase Orders, or credit card payments.

I'm registered, what's next?

For the HAZWOPER 8-hour class, once enrolled, just hang tight! The training will be released on April 1st. All registered participants will be emailed instructions when the training is released. For the HAZWOPER 24-hour class, desired dates (either 3/26-3/27 or 4/23-4/24) are selected as part of the enrollment process. All participants will be emailed the Zoom link one week prior to the scheduled streaming date.
