

2023

# Ammonia Safety Training

REGISTER NOW!

**PermaCold Engineering** is pleased to host its Annual Ammonia Safety Training. The training sessions will be offered in three different venues; Portland, OR, Pasco, WA and Meridian, ID. PermaCold Engineering is excited to partner with iWorkWise to provide the best choice in Ammonia Safety Training.

## 24-Hour Hazardous Materials Technician \$790

This class satisfies OSHA and state requirements for those who respond offensively to stop a hazardous chemical release. Topics covered include laws and regulation; incident command and notification; hazard recognition, assessment and communication; respiratory protection; monitoring and instrumentation; PPE/chemical protective clothing; decontamination procedures; confined space hazard and assessment; lockout/tagout; and emergency response plans.

## 8-Hour First Responder Operations Level and First Responder Awareness Level \$295

This class is designed for those who respond defensively to hazardous chemical releases. Topics covered include basic terminology; hazard risk assessment techniques; selection and use of PPE; basic control, containment and confinement and decontamination procedures; DOT emergency response guidebook; and standard operating and termination procedures.

## 8-Hour Annual Refresher \$295

An annual refresher course is required to maintain the 24-Hour certification.

CLASSES ARE SMALL!
